Player Ratings / Rankings

A player's rating is determined by his performance in "pick-up" games during the off-season or on Monday mornings in season or during an individual workout, if necessary.

The rating is based on skills exhibited in...

- a. hitting**
- b. fielding**
- c. throwing**
- d. base running**
- e. overall athletic skill**

The ranking is a numerical index arrived at from the evaluation of the performance and the numerical rating the player is assigned in each of the above mentioned skills.

The purpose of this Rating / Ranking system is to help to insure that the drafting of teams for league play will be as equitable as possible.

Players will be able to request participation in either of the two (2) divisions. However, final determination will be at the discretion of the Board of Directors.
